

Colgate's stands in a class by itself

Henry Leffmann, M.D., Ph.D., D.D.S. (U.S.A.)

Noted Philadelphia Medical and Dental Authority

I HAVE made surface tension determinations of eight samples of toothpastes. One of these samples is Colgate's toothpaste. All samples were in original packages as furnished in the open market.

Colgate's exhibits the lowest surface tension. Colgate's preparation, therefore, gets into the crevices between the teeth, washing out decaying food, etc.

EARLY GIPPSLAND

Interesting Letters Concerning Run
The Hon. E. J. Crooke of Holy Plains has supplied the "Times" with the following interesting letters.

According to Mr. Crooke's records, Walter Curlew, with his brother George Campbell took up 'The Run' in 1842.

W. Curlew also took up Holy Plains in 1842. At that time, the only outlet for stock was to Tasmania.

Curlew then went to King Flat Alberton from August 1844 to 1850.

It is strange he always held Holy Plains minus the 'E', though it was named from the nature of the surface.

Some time back I saw Mr. Reeve of the Ridge and stated that I was going to the Commissioner.

I wrote you in my former letter to say that Mr. Reeve was willing for me to claim within one mile of his Sheep Hut.

I wish to observe that if you intend to buy the Run, let me advise you to bring down more Cattle to stock it.

Anticipating the pleasure of seeing you at The Holy Plains.

Yours very truly
Walter Curlew.

Edward Crooke Esq.
